Welcome to the Tata Mumbai Marathon

For the past 18 editions, Tata Mumbai Marathon has personified the pulse of Mumbai – a pulse that brings us together as a nation, no matter the circumstances. Millions of hearts beating, in sync, for something greater than itself.

Each heartbeat - a celebration of our resilience, can-do, will-do spirit, quest for betterment, desire to inspire, and an unshakeable faith in ourselves.

Whether you run for a personal best or come together to raise funds for a cause close to your heart, whether you are on that startline to support your loved one, or a runner from the furthest corner of the world, here to cross the finish line for the first time, each step you take is a story waiting to be told.

So, let your heartbeat resound from the start line or echo from the corners of the country. No matter where you're running from, you are a part of the 'Mumbai Spirit'.

This guide contains details important to your race day experience on Sunday, 21st January 2024, and race results thereafter. Please go through the content carefully before coming for your race. Regular updates will be uploaded on the event website.

The countdown has begun. We look forward to welcoming you on the start line of the 19th edition of the Tata Mumbai Marathon!

your name, gender and date of birth). This is important in order to generate results post the race.

In case you are unable to come in person, you can authorize someone else to collect on your behalf. Your nominee will need to carry – (a) an authority letter signed by you, (b) a photocopy of your photographic identification, and (c) the nominee's photographic identification.

2. MEDICAL PRECAUTIONS

We know that the 10km is an exciting distance, however, it's imperative you listen to your body before, during and after your run. Most medical emergencies during the race occur in people who have not adequately trained or are unwell and push themselves on race day. If you feel feverish, or have been vomiting, have had diarrhoea or chest pains or generally are feeling unwell, then it is unfair to you and your family to risk serious illness and become a medical emergency. Runners need to take responsibility for their own health by adopting right practices regarding training, eating and hydration.

Before coming on race day, do review these medical scenarios. Also seek your doctor's clearance for participating in the race.

No, no – your eyes are not damaged

It's your brain. It's suffering from loss of focus. Common thing really – it's happening to all of us. Remember when you could sit down and write a 500-word essay in one go?

Try that now. You don't want to? Hmm...

Without realising it, your mind is losing its ability to focus. Because everything around is telling it to jump. From this to not this. Then back to this. Now to that. And the other. Shifting focus all the time and not concentrating on any one thing at all. When was the last time you read 103 words at one go? That's 109 now, and you'll see your focus is returning. Reading does that.

Reading grabs hold of your mind and keeps it engaged on just one thing. With the disturbances shut out, your brain can get back to being sharp. Memory gets sharper too. And imagination more vivid. Your ideation improves. Soon, you're halfway to being Einstein...

Don't stop, now that you've started. Pick up a book and carry right on.
